A PLANET FOR GOLDILOCKS

THE SEARCH FOR EVIDENCE OF LIFE BEYOND EARTH

PUBLIC LECTURE BY LEADING NASA SCIENTIST DR NATALIE BATALHA

Finding evidence of life beyond Earth is one of the primary goals of science agencies around the world thanks in large part to NASA's Kepler Mission which launched in 2009 with the objective of finding Goldilocks planets orbiting other stars like our Sun.

Dr. Batalha will give an overview of the science legacy of the Kepler Mission and other key discoveries. She'll give a preview of what's to come by highlighting the missions soon to launch and those that are concepts taking shape on the drawing board.

SATURDAY OCTOBER 7TH 2017 - 7.00 PM

Admission: Adults \$10.00 Students: \$5.00

Venue: Tikipunga High School, 194 Corks Road, Tikipunga, Whangarei

BOOKINGS: VISIT OUR WEBSITE WWW.PLANETS.NZ OR PHONE 09 438 4406

This lecture is sponsored by the
Beatrice Tinsley Lecture Trust.
